

## Dimmable LED 5.3W downlight (50W halogen/ dichroic equivalent)

Model: TL-403D-GU

These lamps have been designed to be a direct replacement for recessed halogen lamps in all domestic, retail and commercial applications.

- Dimmable with standard 230V dimmers and mood control systems, such as RAKO and LEAX
- Dimming to 5% of maximum light output
- 85% of components reusable reducing the impact on landfill site
- Aluminium body giving good heat management and stability
- Clear optics to give maximum light in specific beam patterns
- 230v AC package only – GU10
- Conversion kit available for 12V MR16 to allow the removal of the transformer
- The lamps will fit into all existing lamp housing and fittings
- TL-403D-GU has 3 CREE power LEDs
- TL-403D-GU has a beam angle between 30 and 35 degrees
- Colour rendering > 80 Ra
- Warm white – 3200K
- Input voltage 100 – 250 V AC

Power Consumption at 100%:  
TL-403D-GU                      5.3W

Luminous flux:  
1346 Lux @ 1.0m  
465 Lux @ 1.5m
